

READ ME

You've just download a lot of files, here's the scoop:

Start Here

Begin with *The Storyformed Way Leaders Guide*. It includes a brief introduction and is compilation of all the *Leaders' Notes* and the *Walking It Out* handouts for all 10 weeks. Use this doc if you find it handy to have all this in one place.

Training

Story of God Training is a great doc for learning more about why we use this form of teaching in making disciples and learning a bit on how to do it well. *You gotta read this*, especially if you have not experienced the Story of God or Storyformed Way personally.

Week # ...

There are several files for each week, including the *Leaders' Notes* and *Walking It Out* handouts as separate files (the same content included in the Leaders Guide) plus a PowerPoint file and any other resources.

Leaders' Notes

This file has the Story and dialogue questions along with some helpful notes for leaders.

Walking It Out

This is a handout to help everyone dig deeper into the Story during the week. Be sure to make enough copies...

PowerPoint Slides

Only very rarely would you need these. When using The Storyformed Way with a small group of people, showing PowerPoint slides feels far too formal. If you do use them, say with a large group, you'll want to familiarize yourself with the content, edit as you see fit and watch for any video clips or music you may need to queue up.

Other Media

We tried to use different types of media to extend the dialogue. Feel free to find your own resources to help people see truth from a different angle. If you find an image, video, song or other resource that really works well, let us know, we'd love to learn from it and share it with others. Over time, we hope to create a much richer list of additional resources for each week.

Although it may be considered fair use to play songs or video clips for teaching purposes, it's unfortunately not appropriate for us to distribute all this material. So in the Leaders' Notes, we point you to key resources we used so you can snag them yourself.
